

# LURIA SERIES 2

IP65 waterproof 12V led strip

## Product Description

High brightness 3528 and 5050 SMD led strip with a 40000 Hours life span. Strips can be cut every 5cm or 10cm and reconnected. 3M adhesive backing. High quality PCB and electronic components to ensure efficient electrical. Strip connector and power supply available on option.

conductivity and maximum power usage at both ends.

LED strip light 5MT roll

Driver-power supply not included

## Design Application

False ceiling borders, cabinets, signboards, home decoration, displays boards, Furniture, commercial and residential areas, aluminium channels, etc.
