

## MAGAZZINO SERIES

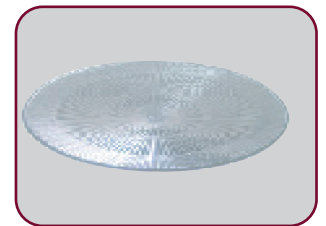

Industrial/Commercial Highbay lighting

Model : LT-YCGH519-520S

Model : LT-YCGH519-480S

Option:

### Description Features:

**Gear box housing and cover:** Made of die-casting aluminum with corrosion resistant polyester powder coat finish. The cover is fixed to the housing optionally with four screws or with four clips.

**Reflector:** The precisely designed calabash-shape fixing holes in top of reflector for connecting with gear box provides quick and easy mounting free from demounting screws.

**Sanded reflector:** Anodized aluminum reflector sand finished surface provides soft light and uniform distribution.

**Prismatic reflector:** Anodized aluminum reflector ridged surface provides soft light and uniform distribution.

**Application:**  
Industrial sites, commercial areas, malls, plazas, warehouses, airports, etc.

### Installation

Gear box integrated with sling ring provides easy connecting to chain or to steel wire for suspending mounting.
