

ECO PLUS SERIES

LED Spot Lamp

Product Description

Housing

Save up to 70% electricity by replacing the old halogen lamps. Durable and efficient heat sink to ensure low temperature operation and longer life span.

Long life span of 30000 Hours. Matches the exact size of the traditional Halogen spot lamp. Mercury free, environment friendly. High power LED source with high lumen output.

Optional GU10 holder available to replace MR16 and GU5.3 holders.

Design Application

Replacement for incandescent, halogen and CFL spot lamps.
