

## LED MASTERSPOT SERIES

GU10 spot lamp

Description  
Features:

1. Environmental friendly, no stroboflash, no UV or IR.
2. High energy-efficiency, the 3W lamp can replace a traditional 25W incandescent lamp.
3. Insulated ceramic materials with high thermal conductivity, better heat dissipation, better stability of the LEDs.
4. Excellent insulation, protection from electric shock problem.
5. Easy installation, compatible with traditional socket GU10
6. High quality LEDs, long lifespan.

Model	Dimension	Power(W)	Luminous Flux(lm)	CCT(K)	CRI	Input Voltage(V)	Power Factor	Socket
	(mm)							
LT-GU10-C3	D50 / L57	3	200	6000/4000/3000	70/80	AC 100-240V	>0.5	GU10
LT-GU10-C5	D50 / L57	5	400	6000/4000/3000	70/80	AC 100-240V	>0.5	GU10
