

LED SAVERPLUS SERIES/CANDLE SERIES

LED E27 / LED E14

Model - LT-B35-3W

Description

Features:

Environmental friendly, no stroboflash, no UV or IR.

High energy-efficiency, the 3W lamp can replace a traditional 25W incandescent lamp.

Insulated ceramic materials with high thermal conductivity, better heat dissipation, better stability if the LED's

Excellent insulation, protection from electric shock problem.

Easy installation, compatible with traditional E14 socket.

Good quality LEDs, long lifespan.

Model - LT-A60-A5

Description

Features:

High lumen output, suitable for commercial applications.

Durable fin-shape heat sink design, offers optimal heat dissipation.

The G10 can replace a traditional 60W incandescent bulb.

Excellent insulation, protection from electric shock problem.

Easy installation, compatible with traditional E27 socket.

Good quality LEDs, long lifespan.

Model	Power	Luminous Flux(lm)	CCT(K)	CRI	Input Voltage(V)	Light colour	Socket
LT-B35-3W	3	180	3000k	70/80	AC 100-240V	Warm white	E14
LT-B35-5W	5	400	6000k	70/80	AC 100-240V	Cold white	E14
LT-A60-A5	5	350	6000k	70/85	AC 100-240V	Cold white	E27
LT-A60-B7	7	600	3000k	70/85	AC 100-240V	Warm white	E27
LT-A60-B9	10	800	6000k	70/85	AC 100-240V	Cold white	E27
